

Updated Uniform Number Selection Policy

New 2-Year Uniform Cycle | Effective 2026

More players. More movement. More flexibility

WHY THE CHANGE?

🔄 Age Group Changes

National shift from calendar year → school year means more roster movement

📈 Club Growth

More players makes fully unique numbers harder to manage

⚽ Player Requests

More access to traditional low soccer numbers

OPTION A: Numbers 0–30

Team-Based Numbers

- ✓ Available to all teams in the age group
 - ✓ Chosen within your team
 - ⚠ Not unique across the age group

What to Know

- Returning players have priority to keep their number
- If returning players conflict:
 - Conversation first
 - Coin toss or draw if needed
- Returning Players choosing to change numbers lose priority

CAUTION High Risk: If a player moves to a new team and has a number conflict, they are responsible for purchasing a new uniform.

OPTION B: Numbers 31–99

Age-Group-Unique Numbers

- ✓ Unique across the entire age group
 - ✓ One player, one number
- ✓ Safest choice if team movement is likely

What to Know

- Selection happens after all teams finalize rosters
- Returning players have priority to keep their number
- Conflict resolution follows the same process:
 - Conversation → coin toss → draw

★ Key Benefit:

Players keep this number even if they move teams during the 2-year cycle

Feature	0–30	31–99
Unique across age group	✗	✓
Available immediately	✓	✗
Risk if changing teams	🔴 Higher	🟢 None
