Parent Portal Guide to Registration

These instructions outline the process to make a new parent account in order to access the TGS Parent Portal.

IMPORTANT BEFORE YOU BEGIN:

A parent can NOT share the same email as a player in the TGS system. This is due to the college recruiting connection and how the messaging works.

If your child is currently using your email address we recommend that you log in to your player's account and change their email address to their own personal email address or use an alternative email address for yourself. To log into your child's account [please use this link](#).

STEP 1 - Create a TGS Parent Account

1. [Start at this link](#).
2. Fill out all required information using a separate email than the player's account and click **Create Account**. If you have an existing TGS account, see below.

You are brought to the TGS login screen. Login to the account you just created and select **Parent Portal**.

Existing TGS Account Holder:

If you already have a TGS Team Admin, Head Coach, Assistant Coach or any Club Level Access start at the link provided by your organization or [use this link](#).

Fill in your SAME information from your existing account.

Once you click Save, the system will find you and create a Parent role for you.

You will be instructed to [log in to your TGS account at this link](#).
